Please circle the date you wish to attend. Directions will be forwarded on registration.

COURSE OUTLINE

Basic Hydraulics

Health, Safety & Environment

Hose and Connector Identification

Hose Assembly

Installation

Hose and Connector Failure

(The South African Fluid Power Association gratefully acknowledges permission granted by the British Fluid Power Association to adapt their "Foundation Course in Working Safely with Hydraulic Hose and Connectors" for training purposes in South Africa.)

Purpose of the course

This short course has been developed to provide an introduction into hydraulic hose, connectors and the safe assembly of these components for industry use.

The course is not competence based, but a familiarization of the above products for both workshop based mobile operatives.

On completion the attendee will have a knowledge and understanding of safe hose assembly manufacture and, if applied, will only enhance the safety within the hydraulic industry and the attendee himself/herself.

Seating per course is limited so apply NOW!

**Still unsure of something? Please contact the SAFPA Secretariat at :
011 888-7163 or email ctr@safpa.org.za. Visit the SAFPA website at
